ALPINE®

Mobile Media Solutions

Enabled

We've got what it takes.

To deliver all the entertainment you want. Built-in or hooked up, your favorite sound sources are ready to play. With legendary Alpine quality and super-fast access, get enabled to do what you want. Same road, totally new driving experience.

HD Radio

Radio goes digital and Alpine is ready.

Everything is going digital, and now your radio is too! Hear FM in CD quality sound and AM clear like never before. Connect the High Definition Radio Receiver to any 2006 Ai-NET head unit and enjoy the clarity!

**Satellite radio:
it's your choice.**

XM or Sirius? Alpine was the first to introduce units that offer either service. Don't make your choice of satellite providers determine what radio you can buy. Find stations fast with Quick Search.

Service, module and antenna are an extra cost.

**If you've got the disc,
we've got the player.**

Want a wide choice of music, and movies too? Alpine has head units that play DVD-Audio and DVD-Video, plus DVDs or CDs burned with MP3 or WMA songs.

**Full Speed™ Connection
for iPod®**

With Alpine's Full Speed Connection, it only takes a single cable to directly connect your iPod. Data transfer is super-fast and you get full search and full control of all the music on your iPod. For more information, please visit www.alpinefullspeed.com

**Lots of music?
Find it fast!**

iPod playlists, SAT radio stations, MP3 disks...search anything and find what you want faster than ever with Quick Search. Intuitive buttons and a rotary dial make it easy.

USB MP3

USB MP3 Meets Ai-NET

Alpine is working closely with Microsoft to enable music from PlaysForSure Online Stores to play through Alpine Ai-NET head units, on a number of leading portable MP3 players from brands like iriver™ using Microsoft's DRM platform. You can still play ripped music with standard support functionality and get premium support like enhanced Quick Search of Playlist, Artist, and Album when you purchase music through online music stores that support PlaysForSure.

• Check www.alpine-usa.com for more information.

**Surround yourself with
5.1 channels of multi-channel music.**

It's time for you experience the most amazing way to hear multi-channel music in your car with Alpine. With both Dolby Digital and DTS compatibility, DVD Audio discs never sounded better. Experience your music the way the artist hears it.

Bluetooth™

Hands-Free Phone Connection

Bluetooth means wireless. That means no cables or cradles to connect your Bluetooth enabled cell phone to an Ai-NET Alpine head unit. Hands-free use lets you talk and listen through the audio system.

Powered Up

We're powered up, so you can get louder.

Amps, speakers, subwoofers. It's about power, but it's also about tight, clean sound. Whatever kind of system you want to build, we've got it covered. Easy to install, it will sound great, look awesome, and play loud!

Type-X Series— the ultimate speaker.

The Type-X series of speakers and subwoofers deliver ultra-high end reference sound performance at the right price. Type-X has flexible solutions to fit any application. Advanced crossover networks fix the acoustics of any vehicle environment, resulting in perfect music reproduction.

Totally new, Totally different.

You've never seen or heard amps like these. Super-efficient power density design gives you more power and the best sound quality, all in less space than ever before. These amps are easily stackable for multi-amp configurations and installation simplicity.

Play it Loud, Play it Long.

Type-R's are built to pound, with massive amounts of SPL and deep, accurate bass. Component speakers utilize Point Source Tweeters for lower resonance and better imaging.

V12™

Perfect for digital media, and for your budget.

The Type-S speakers have been re-designed to provide the power handling and sound quality that digital media demands. Good looks and great sound make them the perfect speaker choice for upgrading any system.

V-POWER™

The secret to our superiority: HAMR Engineering.

Alpine speakers run cooler, play longer, sound cleaner and rock harder. It all comes down to HAMR Engineering.

Slammin' bass in a small space.

If you've got an SUV, hatchback or pickup, Alpine's got the bass solution for you. The new Powered LAT Subwoofer Systems have a built-in powerful amplifier and a custom engineered enclosure. Now get the bass output of two subwoofers from one small box.

TYMPHANY_{LAT} 

FunZone

Boredom strictly prohibited.

What used to be the boring zone for people in the rear seat is now transformed into the FunZone. With entertainment for all or individually, we have your family covered. Riding in your car has never been this much fun!

Shoot video at the game, then watch it in the car.

No need to wait until you get home. Plug in your camcorder and let the kids watch themselves on the screen.

Going for a ride is like going to the movies!

With a wide 10.2-inch screen and built-in Alpine DVD player, this overhead monitor gives rear seaters their own big screen experience. Alpine offers flexible rear seat solutions to fit any lifestyle.

Now the kids in the backseat can do their fighting on-screen.

Hook up a game console and let the battle begin! Alpine's advanced display technology keeps fast-moving action sharp and clear.

Headphones let everyone do their own thing.

The overhead monitor supports multiple headphones, so more people can watch movies or play games silently. All while those in the front seat enjoy their music.

Monitors here, there and everywhere.

You can have a monitor in the front, and overhead, and how about in the back of the headrests? Give everyone their own private viewing space. They'll be begging to go for a ride!

Easy for Drivers

Make it easy on yourself.

Sure, Alpine's award winning navigation systems will get you to your destination with absolutely no hassle, but they can also do a lot more. Alpine navigation systems provide useful information to help take the frustration out of driving. Intuitive controls and turn-by-turn voice guidance make operation easy so you can keep your eyes on the road.

Go and Play.

Blackbird comes with a built-in traffic receiver, pre-loaded maps of the US and Canada, and two million points of interest. It's portable, lightweight, sleek and intuitive.

Go and Play

Add the power of a fixed navigation system, with the flexibility of a portable

Audio, video, plus navigation linked together as one. Dock your Blackbird linking your video monitor, your speakers and your entire journey. You can turn your Blackbird into a fixed navigation device by allowing your map data to be displayed on a larger monitor with touch-screen control (if available). Now you have all the features of a more expensive navigation system with all the flexibility of the Blackbird.

PMD-DOK1 Docking Station sold separately.

MP3

The NVE-N872A is Satellite Traffic Ready, giving you a choice between XM or Sirius traffic services. You'll be alerted to different types of problems to help avoid traffic delays.

Alpine Advanced Navigation software is a joy to use.

Our navigation software is not just convenient; it's downright fun to use. You have access to 3D maps and can use a virtual keyboard, view a wide variety of displays, and search for Zagat-rated restaurants and literally millions of other locations.

Zagat Rating Guide

Smart City Map

Take your choice of high quality monitors.

Alpine gives you a choice of six monitors for navigation and entertainment. The three Mobile Multimedia Stations all provide PulseTouch Control. The TME-M770S has touch screen control and the TME-M710 offers a clear 6.5"-wide view.

Just Drive

Easy interface with voice, touch and remote control

Alpine's NVE-N872A Advanced Navigation System comes with hands-free voice activation with proprietary Easy Street Name Input built-in. This makes our navigation systems easy for drivers

AVplus

Build the Ultimate System.

AVplus is the culmination of Alpine's system building philosophy. Build the ultimate multi-channel A/V system with your choice of amplifiers, subs and speakers for unparalleled sound quality and performance. Plus choose to add on a navigation system, iPod, satellite radio or many other sources to get the system you truly deserve.

5.1-channel sound — hear it once and you can't live without it.

Even with speakers in the rear, stereo is still stereo. But multi-channel audio distributes the instruments and vocals all around you, for a much more dynamic and exciting listening experience. Hear it once and you'll be hooked.

Double DIN, Stealth design with features galore at a touch.

You can't help but love this wide-screen DVD Mobile Multimedia Station. Its PulseTouch display puts selections a quick touch away and it's enabled for iPod, HD Radio and more. The swing face design makes loading discs easy and then hides the inner workings out of sight.

2-in-1 design is the easiest way to a great in-car music experience.

Alpine's multi-channel music amplifiers combine an amp and a digital processor into one unit. Compact and economical, they're an ideal choice for enjoying multi-channel music in your car.

Dialog and vocals take center stage.

Your multi-channel system needs a center speaker, and Alpine offers a unique solution. The DIN sized SBS-05DC shown above mounts right in the dash, making installation easy. For bass, Alpine has various enclosure solutions that make adding subwoofers a snap.

Get your free demo today!

Experience why multi-channel music really is so much better than stereo! Ask your authorized Alpine dealer to give you a free demo and hear the amazing difference for yourself.

Perfect F.I.T.

Make any factory radio perform like an Alpine. Using Alpine's Perfect F.I.T. (Factory Integration Technology), upgrading a factory system just got easier. The award winning VehicleHub Pro, with its intelligent ORB commander, takes this concept to a whole new level. Now you can add and control a multitude of sources on any factory system.

VehicleHub Pro

Good reasons to take your iPod for a drive.

It's easy to connect your iPod to your factory head unit, and control it at Full Speed™.

Add and Control Sources

The more choices you have, the more fun your ride.

No one gives you more music choices than Alpine when upgrading your factory audio system with VehicleHub Pro. Adding sources like iPod, HD Radio, or your choice of Satellite Radio service has never been easier. Connect portable devices like Bluetooth enabled phones or USB media devices to the factory audio system and gain additional functionality and control. Access your music stored on DVD's burned with over 1000 MP3 or WMA files.

USB MP3

Bluetooth™

Alpine Navigation: Makes it Easy for Drivers.

Add Alpine's Advanced DVD navigation to your factory system and any commute becomes a lot easier. Not only does it tell you the best route to take, getting you out of traffic jams, but it helps you find and choose restaurants, hotels and a huge selection of other destinations.

Build a Sound System

The ultimate upgrade: Multi-Channel Music, Go Beyond Stereo

When you hear it, you'll know what we mean. Multi-channel sound is an experience not to be missed, and VehicleHub Pro makes it easy to turn your factory system into the ultimate Alpine 5.1 system.

Don't settle for wimpy sound. Get Powered-Up!

Whenever you decide it's time for more power from your factory system, Alpine is ready with the solutions. Our head units and VehicleHub Pro make it easy to add amplifiers for bigger, better sound and deeper bass.

Alpine F1Status™

DVI-9990
DVD-AUDIO/ CD-TUNER
• DVD-Audio/Video Playback • IONBUS • DVD-Audio Link
• S-Video Output • Requires DAI-C990 or PXI-H990 for operation

TMI-M990
7" WVGA MOTORIZED IN-DASH MONITOR
• 7" WVGA Display with 1.15 Million Pixels • 3 A/V AUX Inputs • 1 S-Video Input • IONBUS

PXI-H990
MULTIMEDIA MANAGER™
• 8Ch Output • Dolby Digital EX/ Dolby Pro Logic II/ DTS ES/ NEO: 6 Decoding • 64-bit Aureus DSP • Requires DVI-9990 for operation

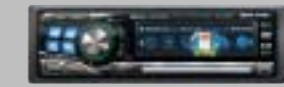

DAI-C990
HIGH RESOLUTION D/A CONVERTER
• 6Ch Output with High Resolution DC-DC Converter
• Variable HP/LP Crossover • For use with DVI-9990 only

MRV-F900
4/3/2 CHANNEL AMPLIFIER
CEA 2006 Power Rating: 100W RMS x 4 [4Ω @14.4V ≤ 1% THD+N] S/N: 85dBa (ref: 1W into 4Ω)

SPX-Z18T
3-WAY COMPONENT SPEAKER SET
• 200W Peak Power • 50W RMS • Frequency Response: 35Hz-60kHz • Sensitivity: 89dB, 1W/1m

SPX-Z15M
2-WAY SINGLE CHANNEL COMPONENT SPEAKER SET
• 200W Peak Power • 50W RMS • Frequency Response: 45Hz-60kHz • Sensitivity: 87dB, 1W/1m

Head Units

DVA-9965 DVD / CD / MP3 / WMA TUNER
• Amp-less Design • GlideTouch • Made for iPod (with KCA-420i) • DVD-MP3/Video Playback

DVA-9861 DVD / CD / MP3 / WMA RECEIVER
• 50W MAX x 4 / 18W RMS • DVD-Video/ DVD-Audio 2Ch Mix-Down Playback • Full Speed Connection for iPod • 3 PreOuts (4V)

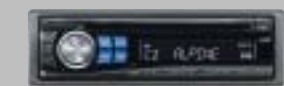

CDA-9857 CD / MP3 / WMA RECEIVER
• 50W MAX x 4 / 18W RMS • BioLite Display • CD-R/ RW/MP3/WMA Playback • Full Speed Connection for iPod • 3 PreOuts

CDA-9856 CD / MP3 / WMA RECEIVER
• 50W MAX x 4 / 18W RMS • CD-R/RW/MP3/WMA Playback • Full Speed Connection for iPod • 3 PreOuts

CDE-9852 CD / MP3 / WMA RECEIVER
• 45W MAX x 4 / 16W RMS • CD-R/RW/MP3/WMA Playback • Full Speed Connection for iPod • 1 PreOut

CDE-9846 CD / MP3 RECEIVER
• 45W MAX x 4 / 16W RMS • CD-R/RW/MP3 Playback • 1 PreOut

CDE-9842 CD RECEIVER
• 45W MAX x 4 / 16W RMS • CD-R/RW Playback • 1 PreOut

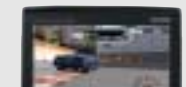

Mobile Multimedia Stations

IVA-W200
2DIN DVD / CD / MP3 / WMA RECEIVER / MOBILE MULTIMEDIA STATION
• 6.5" PulseTouch Display • 50W MAX x 4 / 18W RMS • DVD-R/RW / DVD-MP3 Playback • Full Speed Connection for iPod

IVA-D310
DVD / CD / MP3 / WMA RECEIVER / MOBILE MULTIMEDIA STATION
• 7" Motorized PulseTouch Display • 50W MAX x 4 / 18W RMS • DVD-R/RW / DVD-MP3 Playback • Made for iPod with KCA-420i

IVA-D100
DVD / CD / MP3 / WMA RECEIVER / MOBILE MULTIMEDIA STATION
• 6.5" Motorized PulseTouch Display • 50W MAX x 4 / 18W RMS • DVD-Audio 2-Ch Mix-Down / DVD-R/RW / DVD-MP3 Playback • Full Speed Connection for iPod

Add-On Products

KCE-422i
FULL SPEED CONNECTION CABLE FOR IPOD
• Works with all Full Speed Head Units/ Mobile Multimedia Stations

KCA-420i
INTERFACE ADAPTER FOR IPOD
• AI-NET • Playlist/ Artist/ Album Search Mode • Charges iPod while driving

TUA-T500HD
HD RADIO TUNER MODULE
• Allows for High Definition radio playback • 06 AI-NET Compatible • Crystal Clear Digital Quality Sound

KCA-100BT
BLUETOOTH INTERFACE MODULE
• Hands-free Operation with compatible Bluetooth™ phones • Callers voice heard through system speakers

KCA-620M
USB ADAPTER FOR MP3
• Works with many USB Storage Devices • AI-NET • Quick Search Ready

CHA-S634
6-DISC CD / MP3 CHANGER
• AI-NET/IM-BUS Compatible

Navigation

NVE-N872A
ADVANCED DVD NAVIGATION SYSTEM
• Touch Control Ready • Voice Control Interface • Satellite Traffic Ready • Remote Control Included • Build-in Expansion Terminal • Build-in Compact Flash Slot

NVD-A801
SMART MAP PRO DVD ROM
• Full Coverage of US, Canada and Hawaii • Zagat Ratings Guide • Smart City Map • Over 9 Million POIs • 3D Freeway Junction View • Selectable English/ Spanish and French GUI

HCE-100XM
XM NAVTRAFFIC RECEIVER MODULE
• XM Tuner for Reception of XM Data Service

PMD-B100
PORTABLE NAVIGATION SYSTEM
• 3.6" Digital LCD Touch Display • 16-Channel GPS Receiver • Turn-by-turn GPS navigation system with preloaded maps of USA and Canada • Built-in traffic receiver (requires optional traffic data service) • Approximately 2 Million Point Of Interest (POI) locations • 7 POI Map Icons • 1GB MP3 and WMA player with built-in FM transmitter

Rear Seat Entertainment

SHS-N100
SINGLE SOURCE WIRELESS HEADPHONE
• Additional Headphone for PKG-RSE2 or PKG-1000

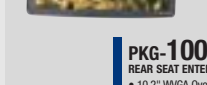

SHS-N202
DUAL SOURCE WIRELESS HEADPHONE
• Independent Source Selection • For use with PKG-RSE2 or PKG-1000
• Independent Source Selection

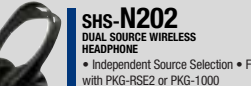

SHS-N252
DUAL SOURCE WIRELESS HEADPHONE SYSTEM
• Includes 2 Headphones and IR Transmitter • Independent Source Selection • Extended Bass Driver

PKG-RSE2
DVD REAR SEAT ENTERTAINMENT PACKAGE
• 10.2" WVGA Overhead Monitor with 1.15 Million Pixels • Built-in DVD Player • Includes 1 Headphone and Remote Control

PKG-1000
REAR SEAT ENTERTAINMENT PACKAGE
• 10.2" WVGA Overhead Monitor with 1.15 Million Pixels • Built-in FM Modulator • Includes single-source Headphone and Remote Control

Factory Integration Technology

VPA-B222
VEHICLEHUB PRO
• 50W MAX x 4 / 18W RMS • Universal Command Unit • Full Speed Connection for iPod • 2 AUX A/V Inputs • Navigation Input

VPA-B211A
VEHICLEHUB
• Made for iPod (with KCA-420i) • 2 AUX A/V / Navigation / Rear Camera Inputs • Wireless Remote Control

PXA-H701
MULTIMEDIA MANAGER™
• Digital Time Correction • Dolby Pro Logic II and DTS Decoding • 31-Band Graphic • Stand-alone Operation with RUX-C701

RUX-C701
1DIN CONTROLLER FOR PXA-H701
• For Stand-alone Operation of PXA-H701
